

Mountain Devils Walk Leader Guidelines.

These guidelines have been developed by the Mountain Devils for use by walk leaders and have been derived from guidelines issued by Bushwalking NSW Inc. It is recommended that a walk leader will have completed a minimum of 4(four) walks with our club.

PLANNING A WALK:

1. Provide a brief description of the walk, including the activity grade and forward the details to the walks coordinator.
2. Pre-walk the route if possible taking note of any potential risks and morning tea and lunch spots. If the walk is 'exploratory' plan the walk from reference to the map or by reference to other information sources.
3. Have an alternate plan in case of unforeseen circumstances. eg. Flash flooding, track erosion, transport changes etc.
4. Choose areas and walk levels that are within your capabilities as a leader.
5. Clearly describe potential hazards to all intending participants and exclude any participant who in the leader's judgement may have difficulty completing the planned activity.
6. Leave comprehensive details of the walk with a club officer including instructions on what to do if you do not return at the expected time.
7. A few days prior to the walk check transport details if applicable, expected weather conditions and in summer, fire conditions, park closures etc.

Note: It is a club rule that there must be a minimum of four(4) persons (including the leader) for a bushwalk to proceed.

PRIOR TO THE START OF AND DURING THE WALK:

1. Ensure a map, compass, first aid kit and any other equipment appropriate for the planned activity are brought on the activity.
2. Ensure all participants complete the sign on sheet, which includes the Risk Waiver form.
3. Hold an introductory circle prior to setting out and advise details of the walk including expected terrain, distance, possible hazards, expected return time etc. and that all participants have the requisite experience, equipment and fitness for the activity. The leader has the right to refuse participation to any persons they consider may present a risk to themselves or other participants or do not have the necessary skills for the activity.
4. Ascertain if anyone is carrying a mobile phone, GPS or EPIRB for emergency use and whether any participants have a first aid certificate and/or medical training.
5. Have a reliable person act as 'tail' for the group and advise participants not to fall behind this person for any reason without advising the 'tail'. Ensure you maintain a line of sight with the participants. Advise walkers that if they must leave the track urgently then they must deposit their backpack on the track in plain sight.
6. On track walks wait at track junctions to ensure nobody goes the wrong way. Carry out regular head counts to ensure you have everyone.
7. Have regular drink and rest breaks and allow walkers to regroup.
8. Manage the group, & monitor any unexpected hazards. Ensure everyone is comfortable with the pace and conditions. Remember it is easier for fast walkers to slow down rather than slow walkers to speed up.

AT THE END OF THE WALK:

1. Ensure that all participants have arrived at the finishing point, & that all vehicles will start before anyone leaves.
2. Forward the completed sign on sheet including reports of any incidents/accidents to the walks co-ordinator or committee.
3. Contact the person with whom trip details were left to inform them of return.
